

Corporate Quality Policy

DORIS Engineering has put in place, as a management tool, a Quality Management System in accordance with the ISO 9001:2015 standard. DORIS Engineering is committed to implementing this System and to improve continually the effectiveness of the System.

DORIS Engineering provides Design, Engineering, Project Management and Procurement services to the international oil, gas and renewable energy industries. As an independent partner, DORIS engineering is committed to deliver the best solutions to its clients, in order to enable faster developments in a cost driven market.

To this end, the **objectives** of DORIS Engineering are:

- To enhance **client satisfaction** by meeting client's requirements in terms of quality, cost and schedule.
- To develop **innovative and cost-effective solutions**
- To **measure and control costs** related to the provision of services
- To **enhance DORIS team performance and competence** through good working conditions and training

The company management is responsible for defining this Corporate Quality Policy and its objectives, the resulting Processes and their Key Performance Indicators and the actions required to monitor risks and improve the efficiency of the Quality Management System.

The Process Pilots will monitor their process and provide inputs to the company Quality Management Reviews in order to continuously monitor the efficiency and the relevance of the quality Management System.

All employees working at DORIS Engineering are required to ensure that they are aware of the Quality Management System and the particular Process requirements appropriate to their work and shall report any situation having an adverse effect on this Corporate Quality Policy and its objectives.
